RUGGLES RAMBLINGS--Part 2...In last month's HELLO AGAIN, I covered 8 major faults I find with the average trader and collector of old radio shows. Let me elaborate now. DOUBLE-SPEEDING: An equalizer helps but there are basic problems: First, most machines are off speed at $3 \frac{3}{4}$; worn capstans, drive pucks, motors, springs or gears within the machine that may cause "drag" because they are worn. When this machine is turned to $7\frac{1}{2}$ the off-speed is now doubled. Hence, so many shows around that run fast and/or slow. Another important factor are the tape-guides. With so much of today's tape being cut down video-tape, many machines do not have their tape guides set to the nth degree, and hence, on a fast speed, the tape tends to bounce up and down vertically, giving a fading in and out sound, or certainly cross-talk. We must remember the actual head size is the same of a 4-track machine as it is on a 2-track, so you can imagine how much more critical the clearance allowance between tracks of the 4-track than on the 2-track. Many problems would be eliminated if more collectors collected only $\frac{1}{2}$ -track tapes. The sound is definitely more superior. Cassette tape is too thin to even consider. Another problem that comes when double-speeding is that the collector is not listening to the program. That is how we get clipped introductions, and many shows with gaps in them or endings cut off before the network cue is given. Even though your copy was taken from two transcriptions with a 15 or 30 second gap between part 1 and part 2, there is no need to pass it along to another trader. But if you are double-speeding the gap goes by so fast you don't notice it....Always use the output jack on your machine (or monitor) but never the speaker jack. Read the manual that came with your recorder. Finally, as to the cue cards. I am referring to a card or piece of paper that should contain the following information, and should be enclosed with each reel you are sending out: 1. Your name, the tracking of the tape ($\frac{1}{2}$ -track, etc), and the date the tape was mailed 2. List each show on each side, giving title of show, date and/or episode number, and the catalog number of your own so the person you are sending it to can easily locate it in your catalog and can cross it off or make a notation that he has received the show from you...Recently uncovered a big pile of radio transcriptions? Just a reminder that they cannot be done on home equipment. Why ruin a new show going into circulation for hundreds of fellow collectors. Get it transcribed properly on radio station equipment. I know several collectors who have this equipment and will do the dubbing for you at no charge. Just drop me a line and I will pass along the name and address....That's it for this month. Drop a line with any points you'd like me to discuss next month. Write: Bruce Ruggles, Box 1256, North Bay, Ontario, Canada. Let's get with it guys and gals...Lets look for quality rather than quantity.

In a letter received the 15th sent by his parents, Mr. and Mrs. Gene Peck at the same address, Ed died of diabetes...Ed was a very popular and well-liked collector. He received much mail and enjoyed his collecting, taping, trading and correspondence with many friends...Ed subscribed to Hello Again on October, 1971. He had over 2000 shows and especially liked science fiction. Under the name "Radio Memories" he traded and sold shows, always taking great pains for the best service and high quality of programs...Ed and I corresponded quite a bit. He knew more about postal regulations than any trader I know of. He constantly kept me informed of changes and tips for collectors... Ed will be very much missed by his many friends in this hobby. His parents will continue to receive Hello Again.

CURRENT RADIO DRAMA

I LOVE A MYSTERY 7:00 P.M. Doc Long and Jack Packard run the A-I Detective Agency, and to them come most exciting mysteries. Hear them every Monday through Friday at this time.

Mutual's ZERO HOUR has reportedly adjusted its format to a separate drama each night rather than a five part drama each week. It is also being carried by AFRTS' Far East Network five nights a week with reruns of X MINUS ONE, RED SKELTON SHOW, FORT LARAMIE, 21ST PRECINCT, and BROADWAY IS MY BEAT rounding out

the drama hour on successive weeknights. On Saturday mornings, SPACE PATROL is heard; Sunday evenings are given over to programs currently being produced by AFRTS from their vast library-GOLDEN DAYS OF RADIO, PLAYHOUSE 25, and MYSTERY THEATRE. Unfortunately, the latter named shows are cut down to a 25 minute format with the openings and closing credits always excised.

CBS RADIO MYSTERY THEATRE has fallen into a pattern of four new shows on Monday through Thursday with reruns on the three weekend evenings. A continuing log of the shows for March and April follows. My particular thanks to Ellen Robinson for helping confirm [and fill in] dates and titles.

DETECTIVE'S CORNER

Another THIN MAN broadcast has recently come into circulation—this time in the AFRS GLOBE THEATRE format. Entitled THE CASE OF THE ALL AMERICAN ATHLETE [12/1/44], it is one more enjoyable episode from this well-remembered series. Also new is a third GREEN LAMA show of 6/5/49—THE MAN WHO NEVER EXISTED* in excellent sound quality. Of particular interest are six NBC network versions of the NERO WOLFE series from 1950-51 which starred Sidney Greenstreet as Wolfe and a succession of well-known radio actors as his assistant, Archie. Titles are: STAMPED FOR MURDER 10/20/50 [PREMIERE], CASE OF

THE (ABBREVIATED COT) DEAR DEAD LADY 11/3/50, COT CARELESS CLEANER 11/17/50, COT SLAUGHTERED SANTAS 12/22/50, COT VANISHING SHELLS 2/2/51, and COT MIDNIGHT RIDE 3/16/51. These have also been broadcast overseas in the AFRS MYSTERY THEATRE format. They were sustaining on NBC and are interesting to hear in successive order as they show a program searching for a more successful approach (and sponsorship) but never quite succeeding during their year on the air—it was not renewed after the run of 26 shows. Also new but obtained in below par sound quality are FALCON adventures—COT BIG FIX, COT NATURAL SEVEN, and COT ACE OF SPADES—which seem to have come from the early 1950's and are either syndicated or sustaining. In equivalent sound to the latter-named are two EUROPE CONFIDENTIAL shows which are hosted by Basil Rathbone. Rathbone devotees may also be interested in his guest appearance on [KRAFT] MUSICHALL on 2/13/47 (AFRS #223) during which he appears in a skit with Eddie Foy Jr. and Eddie Duchin as "Inspector Rathbone of Scotland Yard," a spoof of the central character of the post-Sherlockian INSPECTOR BURKE OF SCOTLAND YARD radio show in which he starred that year.

We would be interested in hearing from any collector who has the above-mentioned FALCON & EUROPEAN CONFIDENTIAL in VG or better sound.

*—indicates show not yet available for trade.

SELF-SERVING SECTION

Honeymoon's Over For Thin Man
and Everyone's Happy

By THE DIALER

THE radio marriage of Claudia Morgan and Lester Damon has passed the tempestuous honeymoon period and everybody's happy—

PAUL RHYMER.

especially Director Himan Brown. "You've no idea the headaches I had after I cast Claudia and Les in the Adventures of the Thin Man," says the director. "It was the old story of boy meets girl. Good actors that they are, they were just a bit awkward and embarrassed in their characterizations of Nick Charles and his wife, Nora."

"But just listen to them on recent programs. Notice how they have grown into their characters as they have become accustomed to each other's personalities and man-

nerisms. Their timing of dialogue and their speech inflections all mean something now.

"And, like married folk in real life, they have developed an intimate language all their own. It conveys nuances of thought and feeling which just can't be put down on the printed page in black and white, even by such a master of detail as Author Dashiell Hammett."

As an example of what he means, Brown cites that Nick has a tremendous admiration for his wife's figure. Naturally he can't go around saying so all the time. It would sound trite. But still, if he's in love, listeners ought to be reminded of it frequently.

So, when Nora appears in a low cut evening gown or a brief bathing suit, or when she preens herself before the mirror, Nick (or Les) has invented a distinctive little purr which sets the whole scene in the fraction of a second.

Numerous scenes will be set during tonight's broadcast (7:00, WMAQ-NBC) when Nick and Nora wend their way through another mystery adventure, concocted by Hammett, who created the orig-

inal Thin Man series for fiction and movies. * * *

PAUL RHYMER, author of V and Sade (five-a-week, 2:30 p. m., WMAQ-NBC), not only rigs up funny situations for the Gook radio family, but also has fun with members of the Rhymer household.

The other day Paul found instructions Mrs. Rhymer had left the maid for that particular day. He picked them up and left the following list in their place:

1. Please tear out partition between kitchen and dining room.
2. Wash my car.
3. Paper the back bathroom.
4. Put the icebox where the sink is and vice versa.
5. Clean and press the living room rug.

Mrs. Rhymer straightened everything out when the shocked maid asked if she should hire a carpenter to help out for the day.

Sounds like something that might easily happen in the Gook household which includes Art Van Haver as Vic, Bernardine Flynn as Sad Billy Idelson as Rush and Clarence Hartzell as Uncle Fletcher.

MAR-BREN

MAR-BREN SOUND CO.

420 Pelham Road Rochester, New York 14610

It's incredible how similar most ads for vintage radio programs are. They should be. We're all selling the same product. Do ads such as these sound familiar? "Old time radio programs -- all your favorites. Catalogue 50¢." "Old radio programs... catalogue/\$1.00 (refundable)." "1930-1962 radio programs. Huge catalog! \$1 refundable."

After you've sent the required funds, you've no doubt been disappointed with many of the catalogues you've received. Most of them simply list programs as if they were items on a grocery list. No details about sound quality or program content.

That's what this ad is all about. We'd like to tell you what you'll be getting before you send us your money.

We're MAR-BREN SOUND COMPANY. We've been in this business since 1964. We didn't start two years ago by ordering several hundred programs from numerous sources, then thinking up a clever name using the words "Remember," "Vintage," "Nostalgia," and of course, "Radio." Our catalogues are the result of an orderly acquisition program whose goal is quality, not quantity.

And for the past nine years, the name of MAR-BREN has been synonymous with quality. If we hadn't been satisfying our customers, we wouldn't be placing this ad in HELLO AGAIN, simply because we wouldn't be around to tell you about ourselves. A large part of our success is due to our repeat, loyal customers who continue to order from us year after year.

Why do they order from us? And keep ordering from us?

Our catalogues list programs with complete descriptions. We know you can't choose from a catalogue which lists "Inner Sanctum; 24 shows from the 1940s." Our listings include dates, titles, sound quality, and a capsule description and running time.

We custom-record tapes for you. You don't have to choose from "ready-made" reels which probably contain programs already in your collection.

We use first-line, top-quality SCOTCH tape. This brand costs a bit more, but we believe that our customers deserve the best. That's why you won't find us using white-box tape, cut-down computer tape, used or spliced tape, or other low grades which most of our competitors use to keep their expenses down and their profits high.

Your finished tape is mailed to you in a protective-lined JIFFY BAG, with a typed and printed mailing label.

From start to finish, from our professionally printed catalogues and mailing labels to our fast, efficient handling of your order, MAR-BREN SOUND COMPANY offers superior value and thoroughly courteous customer service. That's what makes us different. We care. And that should make a difference to you.

We invite you to send 60¢ for our first four supplements which list over two thousand programs now available.
